

**INVESTMENT STRATEGY**

The Tweedy, Browne Worldwide High Dividend Yield Value Fund invests primarily in both U.S. and foreign equity securities that the Investment Adviser believes to have above-average dividend yields and valuations that are reasonable.

**COMMITMENT OF THE ADVISER**

As of March 31, 2022, the current Managing Directors and retired principals and their families, as well as employees of Tweedy, Browne, had more than \$1.5 billion in portfolios combined with or similar to client portfolios, including approximately \$7.6 million in the Worldwide High Dividend Yield Value Fund. Investment Committee members have spent between 13 to 48 years working at Tweedy, Browne. No principal has ever left the firm except for the reason of retirement.

**FUND INCEPTION DATE**

September 5, 2007

**NASDAQ SYMBOL**

TBHDX

**INVESTMENT ADVISER**

Tweedy, Browne  
Company LLC  
Established in 1920

**Investment Committee**

Roger R. de Bree  
Frank H. Hawrylak, CFA  
Jay Hill, CFA  
Sean McDonald, CFA  
Thomas H. Shrager  
John D. Spears  
Robert Q. Wyckoff, Jr.

**INVESTMENT APPROACH**

"Ben Graham" value-oriented approach investing primarily in securities with above-average dividend yields and trading at discounts from the adviser's assessment of intrinsic value.

**NET ASSETS**

Approximately \$80.4 million.  
(as of May 31, 2022)

**INVESTMENT MINIMUMS**

Initial investment \$2,500;  
minimum subsequent  
investment \$200; IRA minimum  
initial investment \$500.

Current and future portfolio holdings are subject to risk. Investing in foreign securities involves additional risks beyond the risks of investing in U.S. securities markets. These risks include currency fluctuations; political uncertainty; different accounting and financial standards; different regulatory environments; and different market and economic factors in various non-U.S. countries. In addition, the securities of small, less well known companies may be more volatile than those of larger companies. Value investing involves the risk that the market will not recognize a security's intrinsic value for a long time, or that a security thought to be undervalued may actually be appropriately priced when purchased. Dividends are not guaranteed, and a company currently paying dividends may cease paying dividends at any time. Diversification does not guarantee a profit and does not protect against a loss in a declining market. Please refer to the Fund's prospectus for a description of risk factors associated with investments in securities which may be held by the Fund.

Tweedy, Browne Worldwide High Dividend Yield Value Fund is distributed by AMG Distributors, Inc., Member FINRA/SIPC.

**GROWTH OF \$10,000 SINCE 09/05/2007**

The performance data shown represents past performance and is not a guarantee of future results. Total return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Please visit [www.tweedy.com](http://www.tweedy.com) to obtain performance data that is current to the most recent month end.

**1** The Fund does not impose any front-end or deferred sales charges. The expense ratios shown above reflect the inclusion of acquired fund fees and expenses (i.e., the fees and expenses attributable to investing cash balances in money market funds) and may differ from those shown in the Funds' financial statements.

**2** Tweedy, Browne has voluntarily agreed, through at least July 31, 2022, to waive a portion of the Fund's investment advisory fees and/or reimburse a portion of the Fund's expenses to the extent necessary to keep the Fund's expense ratio in line with the expense ratio of the Tweedy, Browne Global Value Fund. (For purposes of this calculation, the Fund's acquired fund fees and expenses, brokerage costs, interest, taxes and extraordinary expenses are disregarded, and the Fund's expense ratio is rounded to two decimal points.) The performance data shown would have been lower had fees and expenses not been waived and/or reimbursed during certain periods.

**3** The MSCI World Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets. The MSCI World Index (US\$) reflects the return of this index for a U.S. dollar investor. The MSCI World High Dividend Yield Index reflects the performance of equities in the index (excluding REITs) with higher dividend income and quality characteristics than average dividend yields that are both sustainable and persistent. The index also applies quality screens and reviews 12-month past performance to omit stocks with potentially deteriorating fundamentals that could force them to cut or reduce dividends. The MSCI World High Dividend Yield Index (US\$) reflects the return of the MSCI World High Dividend Yield Index for a U.S. dollar investor. Results for each index are inclusive of dividends and net of foreign withholding taxes.

Indexes are unmanaged, and the figures for the indexes shown include reinvestment of dividends and capital gains distributions and do not reflect any fees or expenses. Investors cannot invest directly in an index.
